

MEMORANDUM FOR: Associate Director-Management, NFAC
SUBJECT : Request to Speak at SAIS, John
Hopkins University
REFERENCE : NFAC 3379-77

1. Per referenced memorandum (attached), I have been asked to speak the evening of 16 February at one of the two-hour sessions on the Chinese economy to be offered at SAIS by Mr. [REDACTED]. I would speak on PRC use of historical analogy to debate current issues of national planning, military and economic priorities, reliance on foreign technology to modernize the economy, and so forth. I have researched and reported on these themes previously and the seminar would not interfere with my work in OSR. My presentation will be unclassified and will not take the form of a formal written paper but will be extemporaneous from notes.

STATINTL

FROM:

STATINTL

National Intelligence Officer for China

SUBJECT:

1. SAIS of Johns Hopkins University has asked me to give a course centered on the Chinese economy. It would start in February 1978, last twelve weeks -- there would be one two-hour class per week given at night. The pay would be \$1300. I would be identified as the NIO for China in NFAC.

STATINTL

2. [REDACTED] of OER, David Denny of Commerce have given a similar course in the past at SAIS. Other officers of NFAC currently teach courses at universities in the Washington area and elsewhere; hence, there are precedents for this. The course would not interfere with my work for NFAC as the NIO for China. In fact, I believe it will help sharpen my own thinking on the Chinese economy.

3. I hope to call on certain experts in OER to assist me in several specialized aspects of the course -- for instance, I would hope the oil expert in OER would give a lecture on the problems of Chinese oil and I have cleared this informally with [REDACTED] of OER. I would split the fee accordingly. The other individuals, however, have not been selected yet. They will forward individual memos for approval when they are designated.

STATINTL

4. I request approval for this activity.
